HOSA CREED

I believe in the health care profession.

I believe in the profession for which I am being trained;
and in the opportunities which my training
offers.

I believe in education.

I believe that through education I will be able to make the
greatest use of my skills, knowledge and
experience in order to become a contributing member of the
health care team and of my community.

I believe in myself.

I believe that by using the knowledge and skills of my pro-
fession I will become more aware of myself. Through fulfilling
these goals I will become a more
responsible citizen.

I believe that each individual is important in his or her own
right;

Therefore, I will treat each person with respect and love.
To this end, I dedicate my training, my skills and myself to
serve others through Health Occupations Students of America.
