

Example of How to do your Outline

Samantha Smith
Biology 1st Hour
Chapter 1 Outline

Section 1.1 Introduction to Biology: Vocabulary

1. Environment- The living and nonliving things that surround an organism and with which the organism interacts.
2. Biology-
3. Organism
4. Organization
5. Growth
6. Development
7. Reproduction
8. Species
9. Stimulus
10. Response
11. Homeostasis
12. Adaptation

Section 1.2 The Nature of Science Vocabulary

13. Investigation
14. Theory

You will continue doing all of the vocabulary for each section until you get to the end of the chapter.

After the vocabulary you will read each section and give the main idea for each red/blue heading. Must be at least one sentence per section!! Can be more 😊

1.1 Introduction to Biology

- a) The Science of Life
 - * main idea
- b) What do biologists do?
 - * main idea
- c) Study the diversity of life
 - *main idea
- d) Research diseases
 - * main idea

Continue till you get to assessment questions. Answer only the assessment questions not the thinking like a scientist questions unless told to do so. None for Chapter 1

1.1 Assessment Questions

- 1) Describe four characteristic used to identify whether something is alive.

Example of How to do your Outline

* answer

2) Explain why cells are considered the basic units of living things

* answer

Continue until all of the Assessment questions for the section are completed.

Then Move to section 1.2 do outline and assessment questions. Continue for the rest of the chapter in the same format.
